

Nurse triage program

Don't let a minor injury become a major expense.

UFG Insurance understands employees are the heart of any company. In addition to being great workers and important assets, they're also friends and colleagues. If they're hurt on the job, there's no doubt employers want to help them on the path to recovery as quickly as possible.

That's why UFG is proud to partner with CorVel to offer 24/7 access to nurse triage for its workers compensation policyholders.

HOW NURSE TRIAGE WORKS

At the time of the incident, employees can call CorVel's toll-free number, 844-842-2674, and speak with a registered nurse who will evaluate the nature of the incident or injury and determine the employee's immediate medical needs. Minor injuries are often prevented from becoming expensive claims by providing quick and accurate care intervention when an injury first occurs.

Services

- Nationwide, 24/7 intake and follow up.
- Immediate intervention and evaluation.
- Telehealth options.
- Nurses specialized in occupational injuries.
- Timely communication with all interested parties.
- CorVel's staff of registered nurses are licensed in all 50 states and advocate timely return to work with quality care for employees.

Features

- A free service for UFG workers compensation policyholders.
- Comprehensive incident gathering.
- Healthcare support for injured workers.
- Bilingual capabilities.
